

# CHAITANYA MUNJE

Full-Stack Engineer | DevSecOps Specialist | CI/CD & Infra Automation  
Pune, Maharashtra • 9284064503 • chaitanyamunje@gmail.com  
[LinkedIn](#) [GitHub](#)

## SUMMARY

Results-driven Software Engineer with approximately 3 years of experience in DevOps automation, full-stack web development, and cross-platform mobile application delivery (Android/iOS). Proficient in Angular, React.js, Spring Boot, Docker, Kubernetes, Ansible, Terraform, and CI/CD pipelines using Azure DevOps, GitHub Actions, and Jenkins. Demonstrated expertise in building and deploying microservices, designing scalable frontend architectures, and automating infrastructure provisioning on both Azure and AWS. Adept at collaborating in Agile environments and consistently delivering secure, high-performance, and production-ready applications.

## TECHNICAL SKILLS

- **Frontend:** Angular, React.js, TypeScript, JavaScript, HTML5, CSS3, SCSS, PWA
- **Backend:** Java, Spring Boot, JPA, REST APIs, Node.js
- **Mobile:** Android (Java/Kotlin), iOS (Swift – contribution level), Firebase
- **DevOps & CI/CD:** Azure DevOps, GitHub Actions, Jenkins, Git, GitLab, Docker, Kubernetes, Ansible, Terraform, Maven, Gradle
- **DevSecOps & QA:** SonarQube, Appknox, Semgrep, LambdaTest, JUnit, Unit Testing, Automation Scripting
- **Others :** Azure, AWS, Bash, YAML, JSON, IaC, Visual Studio Code, Android Studio, Xcode, Jira, Agile, Scrum

## WORK EXPERIENCE

### Software Engineer, Bajaj Finserv

Aug 2022 - Present

- Developed a custom OTA delivery system for Angular PWA updates on Android/iOS, reducing deployment efforts by 70% and supporting 4M+ users across platforms.
- Led migration from monolithic to microservices architecture using Angular Module Federation, reducing build size by 40% and frontend deployment time by 60%.
- Automated end-to-end CI/CD pipelines for Android, iOS, and PWA using Azure DevOps, Jenkins and GitHub Actions, decreasing release cycle time from 3 hours to <30 minutes.
- Integrated DevSecOps tools (SonarQube, Appknox, Semgrep, LambdaTest) into CI pipelines, reducing vulnerabilities by 90% and boosting QA efficiency.
- Built and deployed a React.js KPI monitoring app for iOS, accelerating operational reporting by 50% across 10+ departments.
- Migrated 75+ repositories from Azure DevOps to GitHub with microservice-specific pipelines, improving version control, CI automation, Co-pilot integration and secrets management.
- Automated provisioning of 10+ Azure cloud resources using scripting, cutting infra setup time by 50% and enabling consistent, repeatable deployments.

## EDUCATION

### BE in Mechanical Engineering

Aug 2018 - Jul 2022

Rashtrasant Tukdoji Maharaj Nagpur University (RTMNU)  
CGPA : 9.0

## AWARDS & ACHIEVEMENTS

- Heroes Award, Kudos Award & Developer of the Month - Bajaj Finserv
- Winner - HackRx 2.0 Hackathon, Top 10 Finalist - HackRx 3.0 Hackathon
- Certifications: Azure DevOps Engineer Expert (2025), Azure Developer Associate (2025)
