SUMMARY:

Innovative and results-driven Software Engineer with 4+ years of experience specializing in React.js development. Proficient in JavaScript (ES6+), HTML, CSS, and modern front-end frameworks. Adept at designing, developing, and optimizing scalable web applications while ensuring seamless user experiences. Skilled in UI development, performance optimization, debugging. Passionate about delivering seamless user experiences in Agile environments.

TECHNICAL SKILLS:

- **Frontend Development:** ReactJs, Redux (Context API), React Hooks, JavaScript (ES6+), HTML5, CSS3
- **Backend Development:** Nodejs, Java, RESTful APIs, Microservices Architecture
- **Cloud Familiarity:** AWS
- **Tools:** GitHub, Bitbucket, JIRA, Webpack, Babel
- **Testing and Debugging:** Jest, React Testing Library

SOFT SKILLS:

Problem-Solving | Collaboration | Adaptability | Time management | Attention to detail | Effective Communication

CORE COMPETENCIES:

Agile Development | SDLC | Test-Driven Development (TDD) | Debugging | Code Reviews | Performance Optimization

EXPERIENCE:

Software Engineer | Veritas Technologies LLC | May 2022 - Present

- Developed and optimized React-based UI applications, for efficient component rendering.
- Implemented Redux state management for improved application performance and scalability.
- Optimized components for maximum performance across multiple devices and browsers.
- Designed and integrated RESTful APIs to streamline data exchange between frontend and backend services.
- Led unit & integration testing (Jest, React Testing Library), increasing test coverage to 90%.
- Collaborated cross-functionally with Product Managers, Designers, and Backend Engineers to define requirements and implement technical solutions.

Associate Software Engineer | Veritas Technologies LLC | July 2020 - April 2022

- Developed scalable UI components using React.js, improving application efficiency.
- Implemented Tailwind CSS & Material UI, enhancing UI consistency and responsiveness.
- Worked on Agile methodologies, participating in sprint planning, stand-ups, and retrospectives.
- Performed rigorous debugging & performance tuning, resolving 95% of reported frontend issues.
- Integrated RESTful APIs to enable seamless backend communication with microservices.

PROJECTS:

YouTube Clone | [Project Link](#)

- Designed and developed a fully functional YouTube-like application using React.js, demonstrating UI development expertise.

Inshorts Clone | [Project Link](#)

- Engineered a realtime news application integrating RESTful APIs, showcasing dynamic content updates and user-friendly UI.

GIF Finder | [Project Link](#)

- Built a web application enabling users to search GIPHY images, highlighting proficiency in API handling and interactive UI design.

EDUCATION:

BE Computer Engineering | Pune University | 2016 - 2020 | **9 CGPA**
